

SYAM SUNDAR S

Frontend Developer

- Tamil Nadu, India.
- +91 9894105025
- syamsundardeveloper98@gmail.com
- [syamsundar](#)

SKILLS

Programming Languages, Libraries & Frameworks

HTML, CSS, Javascript, Typescript, Angular, React, Basic Nodejs, Basic React native, Three.js

Tools & Platforms

Wordpress, Git, GitHub, PhotoShop

EDUCATION

2016 - 2020,
B.E Computer Science,
Rathinam Technical Campus,
Coimbatore.

Grade - 7.2 CGPA

2014 - 2016
Higher Secondary School,
Chinmaya Vidyalaya,
Rajapalayam.

Grade - 80.5%

HOBBIES & INTERESTS

- Exploring design trends on Dribble.
- Cricket, Badminton
- Building interactive UI prototypes
- Music
- Gym
- Tech Gadgets

LANGUAGES

- Tamil (*Fluent*)
- English (*Fluent*)
- Malayalam (*Conversational*)

PROFESSIONAL SUMMARY

Experienced Front-End Developer with 4+ years of expertise in building dynamic, responsive, and user-friendly web applications. Proficient in HTML5, CSS3, JavaScript, and modern frameworks like React and Angular. Skilled in translating designs into pixel-perfect, high-performance web pages with cross-browser compatibility and mobile responsiveness. Strong understanding of web development best practices, version control (Git), and user experience optimization. Passionate about collaboration and staying updated with the latest web technologies.

EXPERIENCE

Front End developer | CISAI, Kollam - Kerala

Jan 2021 - Working

- Built interactive and dynamic web applications using React.js and Angular, enhancing user experience and performance.
- Worked with cross-functional teams to align project requirements with business goals, ensuring clear communication and effective collaboration with product managers, UX/UI designers, and back-end developers.
- Led the development of a high-traffic news portal, collaborating with the UX team on design and prototyping while coordinating with back-end developers to implement RESTful APIs and CI pipelines for efficient project execution.
- Designed, developed, and launched web applications from scratch, ensuring timely delivery and successful deployments aligned with business goals and user needs.
- Led the implementation of a micro-front-end architecture with Angular and react js, setting up seamless integration between web applications. Utilized multi-repository management and native federation for efficient module communication and functionality.
- Independently built React projects, gaining hands-on experience in dynamic, scalable applications. Also skilled in SEO optimization and XML configuration for improved site structure and performance.
- Developed and maintained responsive web applications with HTML5, CSS3, JavaScript, and Angular, ensuring cross-browser compatibility. Enhanced key features and implemented scalable solutions to optimize performance and user experience.
- Worked with UX designers to transform wireframes and prototypes into visually appealing and intuitive user interfaces.
- Worked on various projects involving bug fixes, feature enhancements, and code modifications to improve functionality.
- Conducted code reviews and mentored junior developers, promoting a collaborative and growth-oriented environment.
- Optimized existing codebases by refactoring and improving code quality, resulting in better maintainability, performance and user experience.

KEY PROJECTS

News Portal

Sole front-end developer for a news portal, implementing live and local news features while collaborating with UX and back-end teams for seamless data integration.

Firewall - Security System

Developed and maintained a firewall management system using JavaScript and jQuery, with a focus on implementing IP whitelisting and blacklisting functionalities. Designed and implemented features to track and display rule changes across different versions, ensuring accurate comparison and seamless management of firewall rules.

Vehicle Tracking

As the sole front-end developer, implemented vehicle tracking with OpenStreetMap integration, utilizing advanced mapping and navigation technologies to enhance user experience and geospatial data handling.
